ALBANY DOOR SYSTEMS
A company of Albany International Corp.

ULTRACLEAN™
The Ultimate in High Speed Doors

▶ **SPEED**
UltraClean™ opens at up to 60 inches per second.

▶ **SANITARY**
304 grade stainless steel components ensure a sanitary environment.

▶ **EASY TO CLEAN**
Two piece side columns can be taken apart for easy cleaning.

▶ **ULTRAGUARD SAFETY SYSTEM**
Intelligent safety light system eliminates contact with objects in the doorway.

▶ **CONTROLS**
Albany's UltraSmart™ Controller is people friendly and extremely intuitive. Control box includes an integrated rotary disconnect standard.

▶ **WIRELESS SAFETY SYSTEM**
Eliminate coil cords with Albany's patent pending wireless safety system.

▶ **MAINTENANCE**
The self-repairing UltraClean™ is designed to be low maintenance and cycle hundreds of thousands of times.
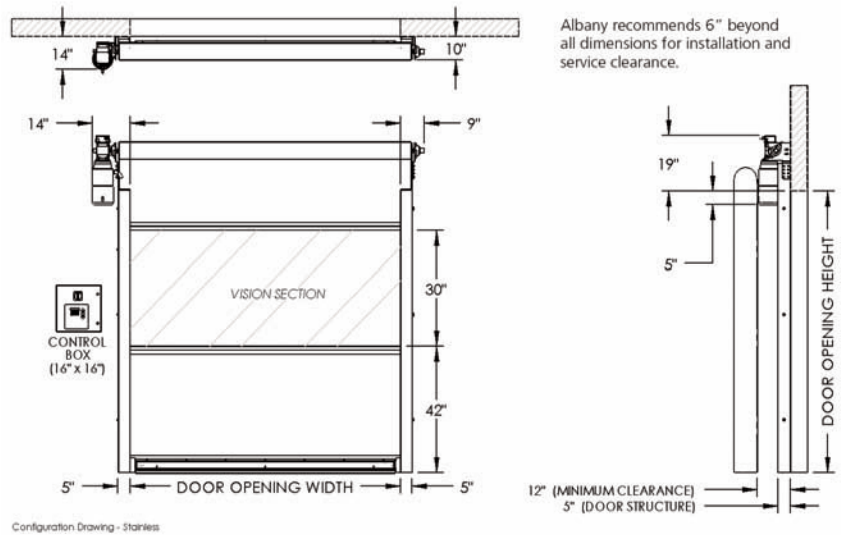

▶ **VISIBILITY**
UltraClean™ offers full width vision standard.

Albany Door Systems' self-repairing UltraClean™ door is designed for high traffic sanitary applications where environmental control and hygiene are critical. Its fast opening and closing speeds control air infiltration and the spread of contaminants. Two piece side column design and stainless steel components allow for easy cleaning. UltraClean is designed to last. It is durable, safe, low cost to maintain and can take a hit.

ULTRACLEAN™

Albany's self-repairing UltraClean™ high speed doors are tough, built to last, and engineered to cycle hundreds of thousands of times.

Albany recommends 6" beyond all dimensions for installation and service clearance.

Stainless Steel Construction
UltraClean's™ side columns, roll and motor covers, corner brackets, shafts, and bottom bar are made of 304 grade stainless steel to protect against moisture, bacteria, corrosion and other unwanted contaminates.

EasyClean Side Column Design
Two piece side column design allows the side columns to be taken apart for easy cleaning.

BacFlap™ Auto-Reset System
When impacted the door panel will automatically reset itself. BacFlaps™ insure against panel tearing.

Durable Panel Design
UltraClean uses durable 40 ounce vinyl panel material with pocketed aluminum ribs.
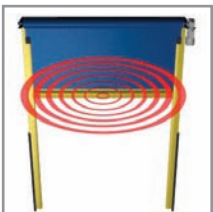

UltraGuard Safety System
Intelligent safety light system eliminates contact with objects in the doorway. UltraGuard's light barrier offers doorway protection up to approximately six feet.

UltraSmart™ Controller
UltraSmart™ walks you through problems on the control screen. Modular components minimize cost and improve reliability. Control box includes an integrated rotary disconnect standard.

Wireless Safety System
Cut your cord with Albany's patent pending Wireless Safety System and eliminate costly repairs and downtime associated with coil cords.
